

AMENDMENTS TO THE SPECIFICATION

Please replace the paragraph [0025] with the following amended paragraph:

[0025] By generating a standardized data stream from the capture templates, content can be displayed on multiple types of platforms. The capture templates are platform neutral and allow content to be portable on one or more different types of platforms. The capture templates are used to transform content for different types of devices. Thus, by using such capture templates, content does not have to be re-coded for each specific type of device or platform.
